

Overview

Mental illnesses are among the most common health conditions in the United States. Over 1 in 5 youth (ages 13-18) either currently or at some point during their life, have had a seriously debilitating mental illness. About 1 in 25 U.S. adults lives with a serious mental illness.

The 28th Annual Psychiatric Symposium will focus on improving psychiatric care through discussions on workplace violence in healthcare, strategies for engaging with difficult or dissatisfied patients, and updates and clinical management of schizophrenia and psychosis. Additionally, the symposium will explore understanding ethnic diversity and historical racial trauma in Black Americans, as well as the intersection of racism and ageism.

Audience

This activity is intended for psychiatrists, neurologists, family practitioners, internists, hospitalists and residents. It will also meet the educational needs of psychologists, nurses, pharmacists, social workers and counselors working in the mental health field.

Location

Hilton Garden Inn is located at 6165 Levis Commons Blvd., Perrysburg, Ohio, in the Levis Commons shopping district. It is easily accessible from I-475/US 23 (exit 2- US 25).

Agha Shahid, MD

8 a.m. Workplace Violence in Healthcare
Tony Thrasher, DO, MBA, CPE, DFAPA

- Define the state of workplace violence (WPV) and the specific components to healthcare milieu.
- Cite differing techniques within the field of healthcare that can reduce risk to WPV.
- Review evidence-based treatment approaches for handling of WPV as a “system.”
- Introduce the tenets of threat assessment and the role it can play in lowering risk of both affective and predatory violence.

9 a.m. Working with Difficult Patients/Engaging with Dissatisfied Patients
Tony Thrasher, DO, MBA, CPE, DFAPA

- Describe what “is” a difficult patient, historically speaking.
- Discuss what makes healthcare conducive to having (creating?) difficult patients.
- Identify what are considerations to have in hand when handling such cases.
- Review what are best practices for ways to mitigate these risks, while helping BOTH the patient and your staff.

10 a.m. Break and Exhibits

10:30 a.m. Schizophrenia and Psychosis: Update and Clinical Management
Stephan F. Taylor, MD

- Review how schizophrenia emerges from the early stages of pre-psychotic phenomena and how it can be recognized early in the course.
- Identify basic types of psychosis in a primary care setting and work-up of the condition.
- Describe a basic understanding of the pathophysiology of schizophrenia/psychosis and current research strategies.
- Describe current management strategies, including the newest pharmacotherapy as well as integrated treatment in coordinated specialty care programs.

12 p.m. Case Discussions – Audience Participation
Stephan F. Taylor, MD

- Discuss updates and clinical management of Schizophrenia and Psychosis.

12:30 p.m. Lunch and Exhibits

1:30 p.m. Disaggregating Ethnicities and Differential Histories of Racial Trauma within Black Americans
Carmen G. Black, MD, MHS

- Identify differential ethnic identities and generational footprints of Black Americans according to all-American histories of anti-Black racism.
- Review how differential ethnic identities might comprise the local population of the Black Americans their institution serves.
- Apply a personal appreciation of how these differential histories of anti-Black racism shape the physical and mental health risk factors of Black Americans.

2:30 p.m. Break and Exhibits

2:45 p.m. Racism and Ageism: Strange Fruit of the Same Tree
Carmen G. Black, MD, MHS

- Define ageism and identify two modern examples in modern medicine.
