

Overview

The goal of this conference is to provide critical care and intermediate care nurses with current information related to clinical practice, professional growth and recent health care trends.

Location

Radisson at The University of Toledo is located at 3100 Glendale Ave, Toledo, Ohio, with convenient access from I-75, I-475, US-23 and the Ohio Turnpike.

Accommodations

If overnight accommodations are required, contact Radisson at The University of Toledo 419-381-6800. (Radisson.com/Toledo) Please mention the ProMedica conference when making reservations to receive the conference room rate.

Other hotels in the area include: Days Inn Toledo, 419-666-5120 or Comfort Inn South Northwood, 419-666-2600.

Featured Speaker

Lorraine Micheletti, MA, MSN, CCRN has extensive clinical and leadership skills. She is a strong leader with significant experience in post open heart, recovery room, CCU, MICU, SICU, Telemetry, and Endoscopy. Working with staff in acute care and teaching nursing students is where Lorraine finds valuable opportunities to prepare both current and future leaders. Lorraine is respected for her highly effective communication, interpersonal strengths, commitment to mentoring and achievement in staff development.

She is a member of the Honor Society of Sigma Theta Tau. Lorraine continues to be an active member of the American Association of Critical Care Nurses, serving as a past President of the local chapter. She is a sought-after regional and national speaker on various management and clinical topics. Additionally, Lorraine has several published journal articles to her credit.

Lorraine has worked in several institutions, both big and small, and has met numerous managers and directors along the way. Among this management group, she found outstanding leaders that she learned from and continues to learn from. Some of them do not have formal titles or positions, but exhibit fantastic informal leadership skills. She looks forward to sharing the key "pearls" she has accumulated through the years - to contribute to your own successes!

Agenda

7 a.m. **Registration, Continental Breakfast and Exhibits**

7:55 a.m. **Welcome and Introductions**

8:05 a.m. **Emerging Trends in Healthcare and Nursing**

Lorraine Micheletti, MA, MSN, CCRN

- Define new language of healthcare.
- Analyze current and future regulations and how they impact your work role.
- Discuss drivers of new healthcare environment and what behaviors will be required of nursing leaders and followers.

9:15 a.m. **Breakout Session A**

Trifecta of Disability or Death: Diabetes/CAD/Stroke

Lorraine Micheletti, MA, MSN, CCRN

- Verbalize understanding of effects of DM2, CVA, MI disease conditions and recognize common chemical and structural changes as they affect vascular anatomy.
- Identify latest evidence-based treatment options for diabetes, CAD and stroke.
- List key patient and family teaching requirements for diabetes, CAD and stroke.

Hot Topics in Trauma

Rochelle Armola, MSN, RN, CCRN, TCRN

- Describe key components of damage control resuscitation in trauma patients and nursing interventions.
- Review 2017 recommendations for venous thromboembolism (VTE) prophylaxis in pediatric trauma patients.
- Discuss American College of Surgeons Stop the Bleed campaign.

Essential Oils – Safe Use in Critical Care Settings

Debra Reis, MSN, RN, CCA

- Identify essential oils and their therapeutic quality indicators.
- Describe safety factors and correlation of essential oil chemistry with physical and emotional benefits for patients and staff.

10:15 a.m. **Break, Exhibits and Poster Presentations**

10:45 a.m. **Breakout Session B**

Narcotic Overdose

Jean Butler, BSN, RN and Andre Antoine

- Describe treatment of commonly seen opioid and heroin overdoses.
- Discuss local heroin crisis, designer drugs and current community resources offering help.

Subcutaneous ICD vs Transvenous ICD

Kamala P. Tamirisa, MD, FACC, FHRS

- Discuss advantages and disadvantages of transvenous ICD systems.
- Describe the evolution and procedural details of subcutaneous ICD system.

12 p.m.

Let's Get Moving: Early Mobility

Laura Cousino, MSN, RN, CCRN

- Discuss benefits of early mobility and impact patient outcomes.
- Identify barriers and solution strategies to early mobility programs.

1:15 p.m.

Lunch in the Atrium

Breakout Session C

Slowers, Speeders, Squeezers, Unloaders, Pee-Makers and Clot Busters-Cardiac Medications

Lorraine Micheletti, MA, MSN, CCRN

- Review anatomy and physiology of cardiac muscle in relation to how anti-arrhythmics and vasoactive medications affect its function.
- Discuss mechanism by which renal system function in relation to diuretic therapy.
- Describe bleeding-clotting cascade in relation to anticoagulant medications.

"I Don't Do Psych"

Amy Isakson, RN

- Identify potential responses of a psychiatric patient when giving direct and indirect ICU nursing care.
- Discuss therapeutic communication techniques with the psychiatric patient.

Fundamentals of Mechanical Ventilation

Andrew Showman, MBA, RRT-NPS

- Review common ventilator terminology.
- Discuss advantages and disadvantages of different breath types and modes.
- Cite most common alarm causes and resolution.

2:30 p.m.

Break, Exhibits and Poster Presentations

2:45 p.m.

Fluids and Electrolytes: The "Give and Take" of Homeostasis

Chris Evans, NP

- Review total body fluids and body compartment classifications.
- Discuss regulatory mechanisms involved in fluid and electrolytes balance with a brief review of related and commonly seen pathophysiology.
- List causes, consequences, treatment and critical nurse's monitoring of fluid and electrolytes.

3:45 p.m.

Making the Health Work Environments Standards Work at the Bedside

Lorraine Micheletti, MA, MSN, CCRN

- Identify the Health Work Environments (HWE) standards.
- Describe what it takes to be an effective communicator with behavior and skills to make the HWE standards livable on a daily shift-to-shift experience.

4:30 p.m.

Evaluation

4:40 p.m.

Raffle and Adjournment
