OVERVIEW
This conference will offer healthcare professionals a forum to discuss current trends in trauma care including recognizing and understanding the importance of compassionate care from pre-hospital through discharge. Discussion will include information on, who is the trauma team, case presentations on motor vehicle trauma, violent trauma and fall and fracture trauma, trauma prevention, and compassionate care.

AUDIENCE
This activity is designed to meet the educational needs of physicians. It also meets the educational needs of nurses, advanced practice providers, and radiology technologists. Chaplains, EMS personnel, social workers and other healthcare professionals may also find the information beneficial.

LOCATION
The Donald V. Kellermeyer Medical Education Center is located on the campus of ProMedica Toledo Hospital at 2113 Hughes Drive. Free parking is available in the parking structure P2, located in front of the Education Center.

GUEST FACULTY

Marcus Engel, MS, CSP
Marcus Engel, MS, CSP is a Certified Speaking Professional and author whose messages provide insight and strategies for excellent patient care. His keynote presentation, The Other End of the Stethoscope has been witnessed by tens of thousands of health care professionals and his books are used in scores of nursing schools to teach the basic foundations of caregiving. As a college freshman, Marcus Engel was blinded and nearly killed after being struck by a drunk driver. Through two years of rehab, over 350 hours of reconstructive facial surgery and adaption through a multitude of life changes, Marcus witnessed the good, the bad and the profound in patient care.

He has authored four books and is at work on a fifth, Narrative Nursing designed to help lead nurses into using proven techniques and therapeutic resources for dealing with the effects of compassion fatigue and avoiding burnout. In 2010, The Drop, a short film based on Marcus’ memoir, was released and can be viewed for free at www.TheDropMovie.com.
